6. Device Name(s):

*If different from name of applicant. Device as used herein is defined to mean add-on or modified part.

**An authorized representative may be required to prove that he/she is authorized to act on behalf of an applicant or manufacturer.

*** Air Resources Board staff can assist the applicant in determining appropriate test procedures and emission standards.

Exemption Application

7. Briefly describe the purpose of the device.

8. Briefly describe the operation of the device.

9. List vehicle/engine/equipment names, model years, engine displacements and systems that are compatible with the device, and for which exemption is requested. Specify the correct device model for each vehicle.

10. The following information is required for the Air Resources Board (ARB) staff to complete an evaluation. Please place a check mark next to the items that are enclosed with the application and provide an explanation for items that are not checked.

(a) A detailed description of the device including operating principles, cross-sectional drawings, electrical schematics, and other such material to assist the staff in understanding its operation.

(b) Copies of all advertising material to be used in selling the device including a sample or facsimile of the packaging label. (Optional).

(c) A copy of the installation and adjustment instructions and drawings that will be included with the device.

Exemption Application

(d) A facsimile or prototype of the identification plate or label to be attached permanently to or imprinted on or near each device offered for sale. The plate or label should be placed such that it is visible after the device is installed, and should contain:

- i) the manufacturer's name
- ii) the device name and model number
- iii) the Air Resources Board exemption number identified as "ARB E.O. No.D-O-XX".

(e) A facsimile or prototype engine compartment plate or label located adjacent to, but not covering, the vehicle/engine/equipment manufacturer's Vehicle Emission Control Information (tune-up) label or Important Engine Information Label. This plate or label is only required if a change is recommended to vehicle/engine/equipment manufacturer's tune-up parameters. In addition to the recommended tune-up parameter changes, the plate or label must contain the same information as the device label.

(f) A list of the companies or persons that will manufacture the device under license.

11. The ARB may require one or more devices for testing. Do you agree to provide the device(s) free of costs? yes no. The device(s) will be returned only if return is requested at the time the device(s) are submitted.

12. Emissions Statements

I affirm that to the best of my knowledge this device (1) shall not cause the emission into the ambient air of any noxious or toxic matter that is not emitted in the operation of such vehicle/engine/equipment without such device.

I understand that an exemption, if granted, does not constitute a certification, accreditation,
